

# PROJECT TITLE

Project Tagline

Developed by Your Name & Name of Company

## Essential Question:

*One open-ended question that is essential to the success of your internship and project.  
Answers to your questions should **not** end in one word answers.*

### Wonderings

3-5 Other open-ended questions that are essential to the success of your internship and project. Answers to your questions should **not** end in one word answers.

### Anchor Texts

What texts will you need access to in order to successfully complete your project? What additional research materials will help you better understand what you're going to be doing? (For example: If you're working at the vet, you may need to do further research on animals, veterinarian techniques, or similar). You should have a **minimum** of 3 texts. Texts may be articles, papers, or similar and use .edu, .gov, or .org .

### Objectives

What objectives will you be aiming to fulfill? Use the attached list of [objective verbs](#) and select three to create your objectives for the project.

For example: If my objective is to observe you at your internship site:

1. Observe students as they engage and interact in an adult world setting.

### Products

What will be the final product(s) for this project? Explain.

### POL/tPOL

How will you exhibit your work in a meaningful way to showcase your learnings and understandings of the internship process?

### Project Overview

5-7 sentences. Please expand and summarize what the scope of your project will look like.

### Mentor Involvement

How will your mentor be involved in the process? What insights can they offer? How can they help support you?

### Benchmarks

Please plan out and create a timeline for your project and what you will complete in the coming weeks leading INTO internship as well as your time DURING internship.
